The accompanying notes are an integral part of these Unaudited Condensed Consolidated Financial Statements.

19. The financial statements in ¶ 18 were materially false and misleading at the time they were made because the Company underreported accrued liabilities and assets.

20. On April 14, 2023, the Company filed with the SEC its Annual Report on Form 20-F for the year ended December 31, 2022 (the “2022 Annual Report”). Attached to the 2022 Annual Report were signed certifications pursuant to the Sarbanes-Oxley Act of 2002 (“SOX”) signed by Defendants Ingenlath and Malmqvist attesting to the accuracy of financial reporting, the disclosure of any material changes to the Company’s internal controls over financial reporting, and

the disclosure of all fraud.

21. The 2022 Annual Report disclosed internal control weaknesses as follows:

Polestar management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended, or the Exchange Act) as of December 31, 2022. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of December 31, 2022 were not effective for the reasons set forth below. In connection with the audit of Polestar's financial statements as of the year ended December 31, 2022, management concluded that there were four material weaknesses in internal control over financial reporting as of December 31, 2022: (i) The controlling department does not have a sufficient number of qualified personnel connecting operations and finance and the accounting function does not have fully formalized accounting processes or a sufficient number of personnel with technical accounting and SEC regulatory reporting expertise to perform reviews of financial reporting matters and other key controls, including performing timely reviews of work performed by external advisors. This caused a failure to design and maintain an effective control environment with the appropriate associated control activities; (ii) A lack of appropriate processes and controls to recognize revenue in accordance with IFRS 15; (iii) A lack of appropriate processes and controls to properly recognize intangible assets at period end in accordance with service agreements for upcoming car models; and (iv) Insufficient processes and controls over the existence, completeness and valuation of inventory.

22. The 2022 Annual Report stated that in 2022, management had completed the following remedial actions:

- designed and implemented internal control framework to cover entity level, business processes and information technology risks;
- strengthened finance function through the addition of accounting and financial compliance personnel and training; and
- designed and implemented controls to support appropriate revenue recognition.

23. The 2022 Annual Report in addition stated that the “current remediation plan includes the following”:

- continue hiring additional accounting and finance resources with appropriate technical accounting and reporting experience to execute key controls related to various financial reporting processes;
- continue to document, evaluate, remediate, and test internal controls over financial reporting, including those that operate at a sufficient level of precision and frequency or that evidence the performance of the control; and
- continue to assess information technology general controls and, as necessary, design and implement enhancements to such controls.

24. The statements in ¶¶ 21-23 were materially false and misleading because they underreported the Company’s internal control issues, considering that the 2022 Annual Report did not disclose material issues with accounting for the Company’s unique tooling, which resulted in an underreporting of assets and accrued liabilities.

25. The 2022 Annual Report contained the following financial statements:

26. The financial statements in ¶ 25 were materially false and misleading

at the time they were made because the Company underreported accrued liabilities and assets.

27. On August 14, 2024, the Company filed with the SEC its Annual Report on Form 20-F for the year ended December 31, 2023 (the “2023 Annual Report”). Attached to the 2023 Annual Report were signed certifications pursuant SOX signed by Defendants Ingenlath and Ansgar attesting to the accuracy of financial reporting, the disclosure of any material changes to the Company’s internal controls over financial reporting, and the disclosure of all fraud.

28. The 2023 Annual Report contained certain restated figures for 2022, but still contained materially false financial information because of, among other things, underreporting assets and accrued liabilities relating to the Company’s unique tooling.

29. The 2023 Annual Report disclosed internal control weaknesses, but underreported the issue, considering that it did not disclose material issues with accounting for the Company’s unique tooling, which resulted in an underreporting of assets and accrued liabilities.

30. The 2023 Annual Report included the following financial statements:

31. The financial statements in ¶ 30 were materially false and misleading at the time they were made because the Company underreported accrued liabilities and assets.

32. On August 29, 2024, Polestar filed with the SEC a current report on Form 6-K that was signed by Defendant Ansgar. This 6-K contained Polestar's Q2 2024 financial results.

33. The financial information included in the Form 6-K was materially false and misleading because of, among other things, under reported accrued liabilities.

34. The statements contained in ¶¶ 18, 21, 22, 23, 25, 28, 29, 30, and 33 were materially false and/or misleading because they misrepresented and failed to disclose the following adverse facts pertaining to the Company's business, operations and prospects, which were known to Defendants or recklessly disregarded by them. Specifically, Defendants made false and/or misleading statements and/or failed to disclose that: (1) Polestar's financial statements during the Class Period were materially misstated; (2) Polestar understated its internal control weaknesses; and (3) as a result, Defendants' statements about its business, operations, and prospects, were materially false and misleading and/or lacked a reasonable basis at all relevant times.

**THE TRUTH BEGINS TO EMERGE**

35. On January 16, 2025, before the market opened, Polestar filed a current report on Form 6-K with the SEC (the “Restatement Announcement”). The Restatement Announcement stated the following:

On January 14, 2025, the management of Polestar Automotive Holding UK PLC (the “Company”), in consultation with the Audit Committee of the Board of Directors (the “Audit Committee”), concluded that the Company’s previously issued audited financial statements included within Annual Reports on Form 20-F for the years ended December 31, 2022 and December 31, 2023 (the “Audited Affected Financials”) and the unaudited interim financial information included within Current Reports on Form 6-K for the quarterly periods ending on and falling between September 30, 2022 and June 30, 2024 (the “Unaudited Affected Financials” and together with the Audited Affected Financials, the “Affected Financials”) contain errors that warrant restatement of the Audited Affected Financials and the interim financial information for the six-month periods ended June 30, 2023, and June 30, 2024.

The primary reason for this restatement decision relates to balance sheet errors concerning the Company’s unique tooling (further explained below), *which have resulted in an underreporting of assets and accrued liabilities in matching amounts for the periods referenced above*. The correction of these balance sheet errors will have no impact on previously reported revenue, operating loss, net loss, adjusted EBITDA or net assets, nor do these corrections affect the Company’s underlying business operations, cash position, or liquidity.

As previously disclosed, the Company owns unique tooling which is used in the manufacturing of its vehicles. This unique tooling has previously been recognised as property plant and equipment once either the production standard part process test is conducted or production utilizing the unique vendor tools has occurred. *Management has determined that certain unique tooling should have instead been recognised as assets under construction (“AUC”) according to the progression of work, resulting in a material understatement of AUC and a corresponding understatement of accrued liabilities in the Affected Financials*. The reconsideration of AUC recognition will change the timing of recognising AUC but will not change the expected total amount of AUC recognised.

A reclassification of cash flows between operating and investing activities and other smaller errors that have been identified will also be corrected as part of this restatement process.

***As a result of the above noted accounting errors, the Audit Committee, based on the recommendation of, and after consultation with, the Company's management, have further concluded that the Affected Financials should no longer be relied upon,*** including the associated report of the Company's independent registered public accounting firm, Deloitte AB ("Deloitte"). Similarly, any quarterly results issued during the aforementioned periods, press releases, shareholder communications, investor presentations or other communications describing relevant portions of the Affected Financials should no longer be relied upon.

The Company is in the process of finalizing the restatement adjustments and evaluating the impact of the above accounting errors on its assessment of the effectiveness of internal control over financial reporting. The Company intends to restate the Audited Affected Financials in an amendment to its Annual Report on Form 20-F for the year ended December 31, 2023. Regarding the Unaudited Affected Financials, the Company intends to restate the interim financial information for the six-month periods ended June 30, 2023, and June 30, 2024, through an amendment to its Current Report on Form 6-K filed with the U.S. Securities and Exchange Commission on September 30, 2024. Except as described in the preceding sentence, the Company does not expect to restate the quarterly Unaudited Affected Financials.

The conclusions of the Audit Committee and Company management described above have been discussed with Deloitte.

(Emphasis added).

36. On this news, the price of Class A Polestar ADSs declined by \$0.135 per ADS, or 11%, on higher-than-average volume, to close at \$1.0850 on January 16, 2025.

37. As a result of Defendants' wrongful acts and omissions, and the precipitous decline in the market value of the Company's securities, Plaintiff and other Class members have suffered significant losses and damages.

### **PLAINTIFF'S CLASS ACTION ALLEGATIONS**

38. Plaintiff brings this action as a class action pursuant to Federal Rule of Civil Procedure 23(a) and (b)(3) on behalf of a class consisting of all persons other than defendants who acquired Polestar securities publicly traded on the NASDAQ during the Class Period, and who were damaged thereby (the "Class"). Excluded from the Class are Defendants, the officers and directors of the Company, members of the Individual Defendants' immediate families and their legal representatives, heirs, successors or assigns and any entity in which Defendants have or had a controlling interest.

39. The members of the Class are so numerous that joinder of all members is impracticable. Throughout the Class Period, Polestar securities were actively traded on the NASDAQ. While the exact number of Class members is unknown to Plaintiff at this time and can be ascertained only through appropriate discovery, Plaintiff believes that there are hundreds, if not thousands of members in the proposed Class.

40. Plaintiff's claims are typical of the claims of the members of the Class as all members of the Class are similarly affected by Defendants' wrongful conduct in violation of federal law that is complained of herein.

41. Plaintiff will fairly and adequately protect the interests of the members of the Class and has retained counsel competent and experienced in class and securities litigation. Plaintiff has no interests antagonistic to or in conflict with those of the Class.

42. Common questions of law and fact exist as to all members of the Class and predominate over any questions solely affecting individual members of the Class. Among the questions of law and fact common to the Class are:

- whether the Exchange Act was violated by Defendants' acts as alleged herein;
- whether statements made by Defendants to the investing public during the Class Period misrepresented material facts about the business and financial condition of the Company;
- whether Defendants' public statements to the investing public during the Class Period omitted material facts necessary to make the statements made, in light of the circumstances under which they were made, not misleading;

- whether the Defendants caused the Company to issue false and misleading filings during the Class Period;
- whether Defendants acted knowingly or recklessly in issuing false filings;
- whether the prices of Polestar securities during the Class Period were artificially inflated because of the Defendants' conduct complained of herein; and
- whether the members of the Class have sustained damages and, if so, what is the proper measure of damages.

43. A class action is superior to all other available methods for the fair and efficient adjudication of this controversy since joinder of all members is impracticable. Furthermore, as the damages suffered by individual Class members may be relatively small, the expense and burden of individual litigation make it impossible for members of the Class to individually redress the wrongs done to them. There will be no difficulty in the management of this action as a class action.

44. Plaintiff will rely, in part, upon the presumption of reliance established by the fraud-on-the-market doctrine in that:

- Polestar securities met the requirements for listing, and were listed and actively traded on the NASDAQ, an efficient market;
- As a public issuer, the Company filed public reports;

- the Company communicated with public investors via established market communication mechanisms, including through the regular dissemination of press releases via major newswire services and through other wide-ranging public disclosures, such as communications with the financial press and other similar reporting services;
- the Company's securities were liquid and traded with moderate to heavy volume during the Class Period; and
- the Company was followed by a number of securities analysts employed by major brokerage firms who wrote reports that were widely distributed and publicly available.

45. Based on the foregoing, the market for the Company securities promptly digested current information regarding the Company from all publicly available sources and reflected such information in the prices of the common units, and Plaintiff and the members of the Class are entitled to a presumption of reliance upon the integrity of the market.

46. Alternatively, Plaintiff and the members of the Class are entitled to the presumption of reliance established by the Supreme Court in *Affiliated Ute Citizens of the State of Utah v. United States*, 406 U.S. 128 (1972), as Defendants omitted

material information in their Class Period statements in violation of a duty to disclose such information as detailed above.

**COUNT I**  
**For Violations of Section 10(b) And Rule 10b-5 Promulgated Thereunder**  
**Against All Defendants**

47. Plaintiff repeats and realleges each and every allegation contained above as if fully set forth herein.

48. This Count is asserted against Defendants is based upon Section 10(b) of the Exchange Act, 15 U.S.C. § 78j(b), and Rule 10b-5 promulgated thereunder by the SEC.

49. During the Class Period, Defendants, individually and in concert, directly or indirectly, disseminated or approved the false statements specified above, which they knew or deliberately disregarded were misleading in that they contained misrepresentations and failed to disclose material facts necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading.

50. Defendants violated §10(b) of the 1934 Act and Rule 10b-5 in that they:

- employed devices, schemes and artifices to defraud;
- made untrue statements of material facts or omitted to state material facts necessary in order to make the statements made, in

light of the circumstances under which they were made, not misleading; or

- engaged in acts, practices and a course of business that operated as a fraud or deceit upon plaintiff and others similarly situated in connection with their purchases of the Company's securities during the Class Period.

51. Defendants acted with scienter in that they knew that the public documents and statements issued or disseminated in the name of the Company were materially false and misleading; knew that such statements or documents would be issued or disseminated to the investing public; and knowingly and substantially participated, or acquiesced in the issuance or dissemination of such statements or documents as primary violations of the securities laws. These defendants by virtue of their receipt of information reflecting the true facts of the Company, their control over, and/or receipt and/or modification of the Company's allegedly materially misleading statements, and/or their associations with the Company which made them privy to confidential proprietary information concerning the Company, participated in the fraudulent scheme alleged herein.

52. Individual Defendants, who are or were senior executives and/or directors of the Company, had actual knowledge of the material omissions and/or the falsity of the material statements set forth above, and intended to deceive

Plaintiff and the other members of the Class, or, in the alternative, acted with reckless disregard for the truth when they failed to ascertain and disclose the true facts in the statements made by them or other Polestar personnel to members of the investing public, including Plaintiff and the Class.

53. As a result of the foregoing, the market price of Polestar securities was artificially inflated during the Class Period. In ignorance of the falsity of Defendants' statements, Plaintiff and the other members of the Class relied on the statements described above and/or the integrity of the market price of Polestar securities during the Class Period in purchasing Polestar securities at prices that were artificially inflated as a result of Defendants' false and misleading statements.

54. Had Plaintiff and the other members of the Class been aware that the market price of Polestar securities had been artificially and falsely inflated by Defendants' misleading statements and by the material adverse information which Defendants did not disclose, they would not have purchased Company securities at the artificially inflated prices that they did, or at all.

55. As a result of the wrongful conduct alleged herein, Plaintiff and other members of the Class have suffered damages in an amount to be established at trial.

56. By reason of the foregoing, Defendants have violated Section 10(b) of the 1934 Act and Rule 10b-5 promulgated thereunder and are liable to the plaintiff

and the other members of the Class for substantial damages which they suffered in connection with their purchase of Polestar securities during the Class Period.

**COUNT II**  
**Violations of Section 20(a) of the Exchange Act**  
**Against the Individual Defendants**

57. Plaintiff repeats and realleges each and every allegation contained in the foregoing paragraphs as if fully set forth herein.

58. During the Class Period, the Individual Defendants participated in the operation and management of the Company, and conducted and participated, directly and indirectly, in the conduct of the Company's business affairs. Because of their senior positions, they knew the adverse non-public information about the Company's business practices.

59. As officers of a public business, the Individual Defendants had a duty to disseminate accurate and truthful information with respect to the Company's financial condition and results of operations, and to correct promptly any public statements issued by the Company which had become materially false or misleading.

60. Because of their positions of control and authority as senior executives and/or directors, the Individual Defendants were able to, and did, control the contents of the various reports, press releases and public filings which the Company disseminated in the marketplace during the Class Period concerning the Company's

results of operations. Throughout the Class Period, the Individual Defendants exercised their power and authority to cause the Company to engage in the wrongful acts complained of herein. The Individual Defendants therefore, were “controlling persons” of the Company within the meaning of Section 20(a) of the Exchange Act. In this capacity, they participated in the unlawful conduct alleged which artificially inflated the market price of Company securities.

61. By reason of the above conduct, the Individual Defendants are liable pursuant to Section 20(a) of the Exchange Act for the violations committed by the Company.
